

RASMAR

Rasmar LLC is a procurement, engineering & construction company that has been operating in Azerbaijani construction market. As a single source supply chain channel we deliver full package of product and service solutions for construction and operational works in Oil & Gas, Marine, Shipbuilding, Construction and other related industries.

Rasmar has grown into a large stocking distributor of strut in all types and materials, threaded rod, pipe hangers, fasteners, tools, anchors, safety supplies, abrasives, and onsite supplies. Over the years Rasmar has established a number of value added services to complement its broad product line. This enables Rasmar to offer the whole package as a construction and industrial supplier. These services include: a rental division, a tool repair division, and a technical services division, which incorporates the planning, designing, and development of large plumbing and structural support systems. Through the use of progressive technology, Rasmar is on the cutting edge of the construction distribution industry.

Our philosophy is simple: we are willing to take the extra steps necessary to obtain the unique and specialty requests of our clients. We focus on the professional commercial and residential construction market, and we also service a variety of other industrial accounts. At Rasmar, we make sure that our solutions are tailored to you. We pride ourselves for not only being your backup procurement team, but also getting you the right product, when you need it where you need it.
